On July 1, 2009 the Financial Accounting standards Board (FASB) instituted a major change in the way accounting standards are organized. The FASB Accounting Standards Codification (FASB Codification) became the single official source of authoritative, nongovernmental U.S. generally accepted accounting principles (U.S. GAAP). Now only one level of authoritative U.S. GAAP exists, other than guidance issued by the SEC. All other literature is non-authoritative. The Codification reorganizes thousands of U.S. GAAP pronouncements into roughly 90 accounting Topics, and displays all Topics using a consistent structure. Also included is relevant SEC guidance that follows the same topical structure used in the Codification. The reorganization is thought to simplify U.S. GAAP authoritative literature.

The Codification includes the following authoritative literature issued by standard setters other than the SEC that apply to all entities (other than governmental entities):

- Financial Accounting Standards Board (FASB) Statements (FAS)
  Interpretations (FIN)
  Technical Bulletins (FTB)
  Staff Positions (FSP)
  Staff Implementation Guides (Q&A)
  Statement No. 138 Examples

- Emerging Issues Task Force (EITF) Abstracts
  Topic D

- Derivative Implementation Group (DIG) Issues

- Accounting Principles Board (APB) Opinions

- Accounting Research Bulletins (ARB)

- Accounting Interpretations (AIN)

- American Institute of Certified Public Accountants (AICPA) Statements of Position (SOP)
  Audit & Accounting Guides (AAG)—only incremental accounting guidance
  Practice Bulletins (PB), including the Notices to Practitioners elevated to Practice Bulletin status by Practice Bulletin 1
  Technical Inquiry Service (TIS)—only for Software Revenue Recognition

- SEC guidance contained in the Codification

  Regulation S-X
  Financial Reporting Releases (FRR)
  Accounting Series Releases (ASR)
  Interpretive Releases (IR)
  SEC Staff guidance in
  • Staff Accounting Bulletins (SAB)
  • EITF Topic D and SEC Staff Observer comments.

Find the portion of the Codification that contains a standard, or identify the standards that make up a portion of the Codification. From the drop-down menu under Practice Area on the left, select the Accting, Audit & Corp Finance link.

1. Click the Go to FASB Cross Reference link on the left.

When you click the submit button, you will retrieve a report that shows you all the locations in the Codification where that original standard has been codified.

You can also identify the standards that make up a portion of the Codification.

Enter a Topic, Subtopic, Section and Paragraph number to get the document number and paragraph, as well as the new codification. The more entries you enter the more you narrow the results.
FASB Codification – Join Sections

Use the **Join Sections** tool to select Codification content that spans multiple topics and subtopics and to create a document containing the combined material.

1. Make sure you select the **Acting, Audit, Corp Finance** link from the **Practice Area** menu on the left.
2. Click on the Tools tab at the top of the screen.
3. Select **FASB Codification** in the left navigation area and click **Join Sections**.
4. Select a menu from the Topic drop-down menu.
5. Include Intersection Subtopics, if desired.
6. FASB content is automatically included in your search; check the SEC box to include it.
7. Click the **Join Sections** button to activate the search.

After you click the **Join Button**, a document containing the combined results will display. You can export or print this using the document tools or click Modify to go back and change the join selections.
