WEEK ON THE WEB: 3,000 HP workers to go on GM payroll

About 3,000 Hewlett-Packard Co. employees will find jobs at General Motors Co. as part of GM's ongoing effort to bring most information-technology work back in-house, Automotive News reported.

The employees being hired already work on GM's business at HP and are expected to be on GM's payroll within six months. GM did not provide additional details on the size or length of the contract or where the workers will be located.
